

HOW TO USE THE DIALOGUE MATS:

- A dialogue mat is like a big worksheet which aims to encourage group discussion at your table.
- You have about half an hour to complete the activities on each mat. Try to divide up your time equally between the questions.
- Once you have a sense of the issues, work through each question together and write your group's answers on the mat in the spaces provided.
- For some questions, we will provide extra pictures and resources.
- We will collect the mats in at the end and record your responses.
- Copies of these mats will be sent to teachers after the conference – we encourage you to use them in your own schools.
